

43rd Annual Sandgren Coast PaintOut

July 7-17th 2021

It will be lovely to paint with you OUTSIDE at the coast again - especially as the limitations imposed upon us by Covid-2 are easing. This year the workshop and PaintOut do not overlap. Let's see how that works.

Coast Workshop July 7-9 (fully enrolled) Registered Workshop participants will have heard from me directly.

Coast PaintOut July 10-17 - Free and Open to All Painters

We intend each member of this self-selected group also to respect each other and state health requirements. I think we can safely manage discussion and sharing of your work should you wish. Please be fully vaccinated or prepared to wear a mask. I hope you'll keep your mask handy just in case. We can continue to distance. Please communicate your expectations to people and respect theirs.

We will convene RAIN or SHINE at the indicated locations by 9:00 AM. Any last-minute itinerary/schedule revisions will be posted to my Facebook site.

You must be prepared INDIVIDUALLY to deal firmly and politely with onlookers who may wish to encroach on your painting site. We have no control over the condition of state park facilities.

ALL painters are welcome who continue to practice Covid protocols and are willing to respect the distancing.

If any of this makes you feel uncomfortable or if you have misgivings about being around groups of people, please stay home again this year or feel free to remain distanced. Keep painting and above all else, be well!

Text me or Email if you have any questions!

All the best, Erik and Kathryn
